SHURE
STEM ECOSYSTEM™

Classroom Reference Design

This reference design highlights just one of a few ways you can configure Stem into your classrooms. In this design you can see three Stem Wall's paired with Stem Hub and Control. Each device is connected directly to your network via a single Ethernet cable. Stem's ecosystem approach gives you the freedom to mix and match devices to create your own customized setup. With Stem you can design your rooms to fit your needs.
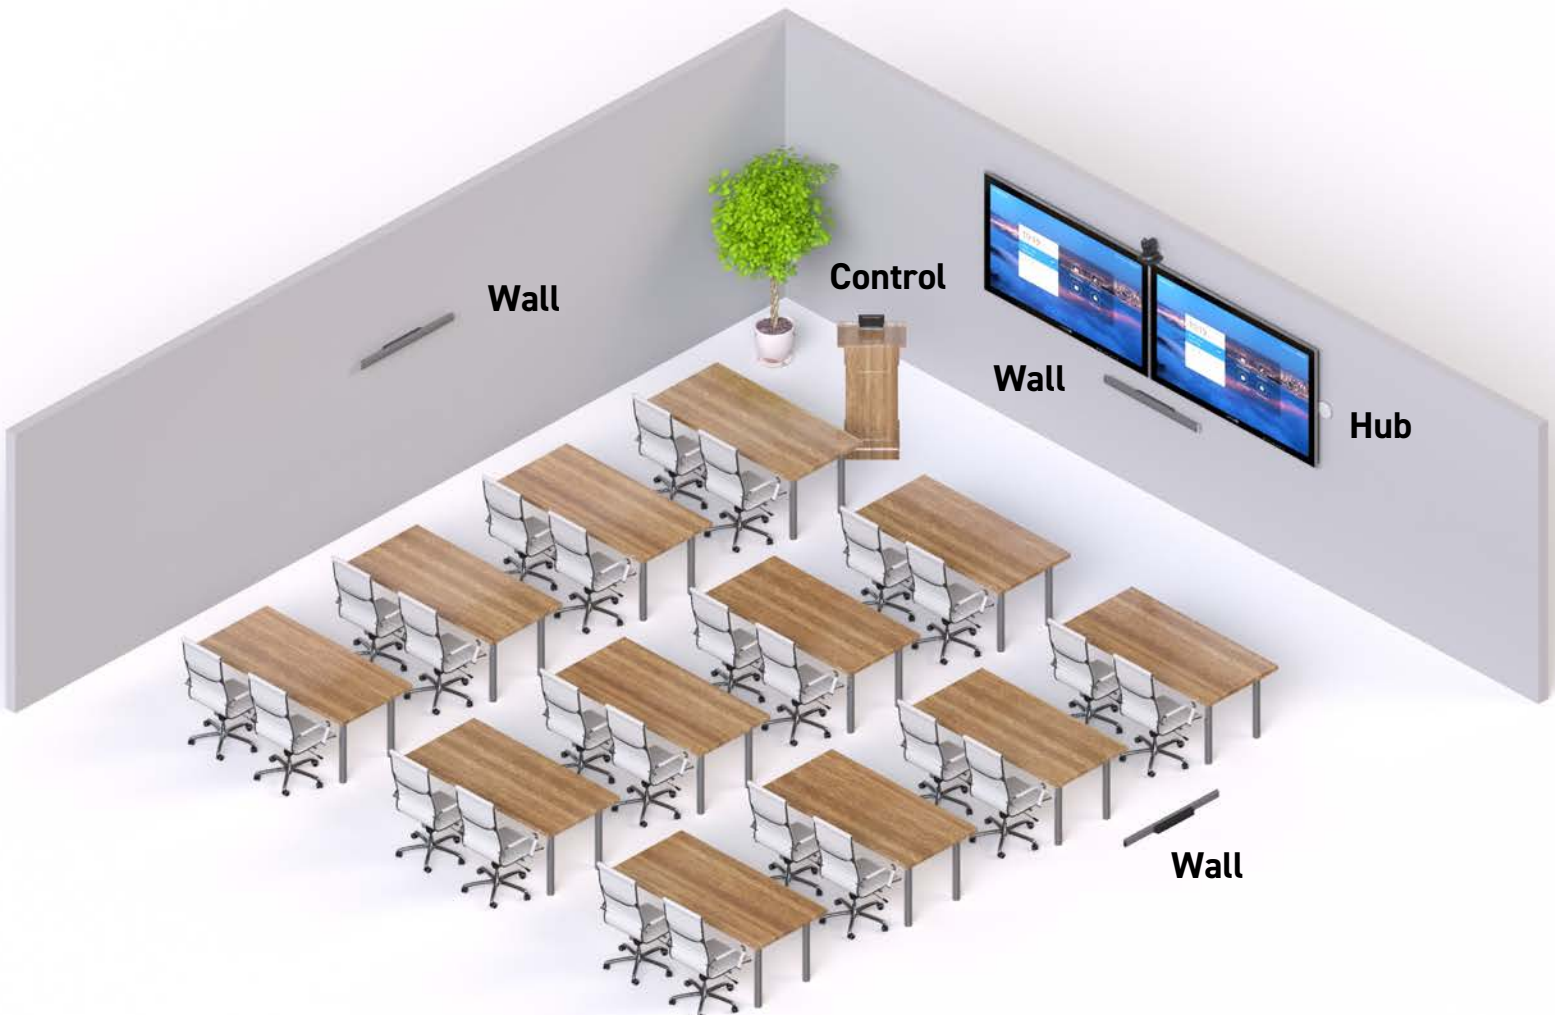

Mix and match all Stem devices for a customized audio solution.

Set up, control, and manage your rooms and devices on your network.

Stem solutions are compatible with your favorite conferencing platforms.

How It All Connects

Internet　　　　Firewall　　　　Router

Switch

PoE+ Switch

Server

Podium

On the Wall

Behind Display

Stem Wall x 3
