STEM
ECOSYSTEM™

Large Conference Room Reference Design

This reference design is just one example of many ways you can configure Stem into your large sized conference rooms. In this design you can see three Stem Ceiling's paired with Stem Hub and Control. Each Stem device is connected directly to your network via a single Ethernet cable. The beautiful thing about the ecosystem is the freedom to mix and match Stem devices to create your own customized setup. With Stem Audio you can design your rooms to fit your needs.
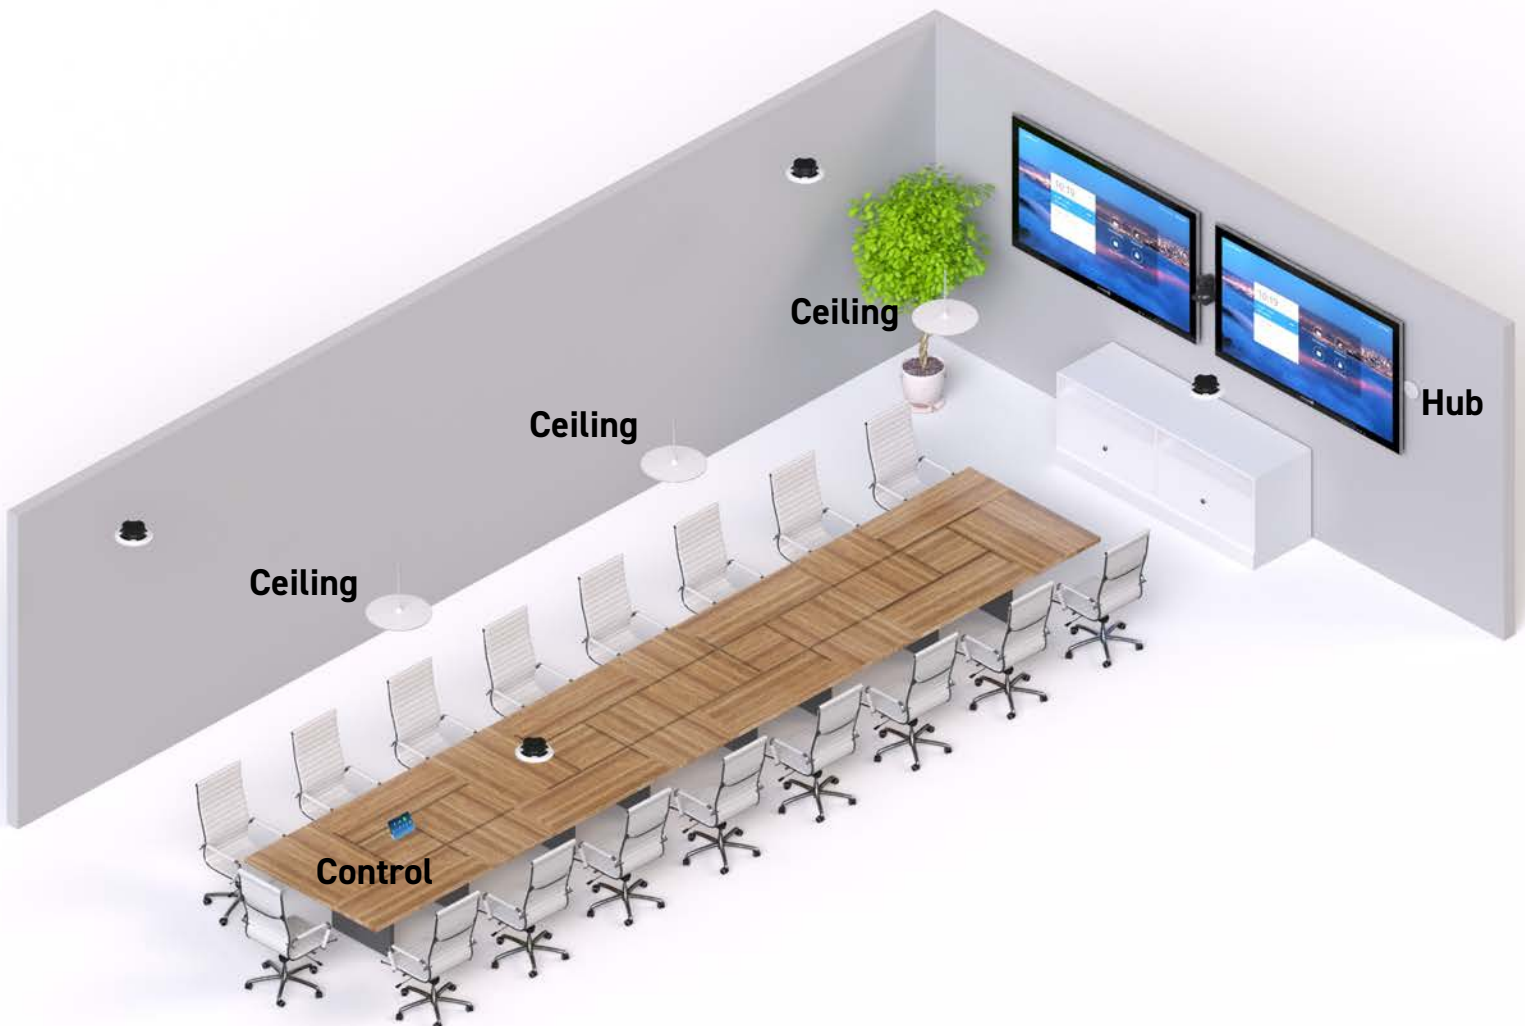

Mix and match all Stem devices for a customized audio solution.

Set up, control, and manage your rooms and devices on your network.

Stem solutions are compatible with your favorite conferencing platforms.

How It All Connects
