AVAYA

The Power of We™

Avaya 9601 SIP Deskphone

The Avaya 9601 SIP Deskphone delivers efficient, productive communications for a wide range of users.

Designed for common areas (lobbies, lunchrooms, etc.) as well as everyday users, the Avaya 9601 SIP Deskphone delivers the advantages of advanced, integrated connectivity in an entry-level device that is affordable and simple to use.
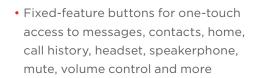

Shipped pre-loaded with Avaya one-X® Deskphone SIP software, the 9601 is ready to interoperate with the Avaya Aura® Platform out of the box, providing an economical option for taking advantage of the wide range of capabilities that the Avaya Aura Platform makes possible:

• Mobility within the enterprise: users can "log in" to any phone and get access to personal features and phonebook information

• Presence information about any other user on the Avaya Aura system

• Access to the hundreds of features delivered by Avaya Communication Manager

• Ad hoc conferences with up to six people (more with extended meet me conferencing)

Features and capabilities

Features and capabilities of the 9601 include:

• A 4-line monochrome display that makes it easy to see caller information and other data as well on on-screen soft keys and menus that speed access to commonly used features

• 2 lines with dual red / green LEDs

• Fixed-feature buttons for one-touch access to messages, contacts, home, call history, headset, speakerphone, mute, volume control and more

• Excellent sound quality through the built-in microphone and full duplex speakerphone—making conference calls more efficient and enhancing customer interactions

• Compatibility with the same wired and wireless headsets as other 9600 Series IP Deskphones

• A built in 10/100 Ethernet switch with a port for a user's laptop or PC

• A red LED on the top right of the set to provide an instant alert for incoming calls and waiting messages

Presence: The Avaya 9601 SIP Deskphone can display the presence status of other network users, making it easy to tell at a glance who is available. For today's mobile, widely dispersed workforce, presence is a critical time-saving capability.

Energy saving: Like other models in the Avaya 9600 portfolio of IP deskphones, the Avaya 9601 phone was designed with energy-saving capabilities, helping reduce its carbon footprint and overall cost of operation.

SIP: The Avaya 9601 IP deskphone accommodates changing business needs with its support for Session Initiated Protocol (SIP).

Avaya one-X Support: The Avaya 9601 user interface fits in with the entire Avaya one-X portfolio of solutions including desktop and mobile endpoints.
