# KASPERSKY SMALL OFFICE SECURITY

WORLD-CLASS PROTECTION FOR BUSINESSES WITH 25 USERS OR LESS.

If you run a small business, you face unique security challenges. You need to protect yourself, your business, and often your customers' valuable data. Chances are, though, that you have limited time, resources, and no specific technical expertise to deal with this problem.

For your unique challenges: a unique solution. Powerful world-class protection that's quick and easy to use — and you don't have to be a technology expert. Kaspersky Small Office Security includes all the security tools your growing business needs, and more.

You can trust Kaspersky Small Office Security to handle your security challenges, leaving you free to run your business.

- Easy to install and manage — no training required
- Cloud-assisted, real-time protection from cyberthreats
- New 'Safe Money' security to protect online banking
- Controls to manage employee web surfing
- Android smartphone and tablet security
- Encryption-based data protection
- Anti-phishing technologies
- Powerful spam filtering
- Secure password management
- Automatic back-up of your data via Dropbox

MULTIPLE LAYERS OF PROTECTION
Kaspersky Small Office Security applies layer upon layer of protection to your PCs, servers, tablets and smartphones. In addition to security technology on your devices, the Kaspersky Security Network, our cloud-assisted protection engine, identifies global cyber-threats and protects you in real time. Additionally, our 'Safe Money' technology protects your financial transactions from online hackers and phishing sites.

HELPS SAVE YOU MONEY
As well as protecting against hacker attacks aimed at stealing your money, Kaspersky Small Office Security helps you keep your employees more productive by controlling their web access and setting controls on when they can surf or message — not on your time! And advanced security features like encryption assure your customers that their data is safe in your hands — increasing your sales potential and customer satisfaction.

EASY TO USE
Kaspersky Small Office Security is packed with simple-to-use wizards to help even the most non-technical person install with ease. You're guided through setup, including the removal of any existing anti-malware product, setting controls, choosing policies and then automatically pushing these changes to several PCs at once. All administered through a single management screen, from your desk or from any PC on your network. Kaspersky Small Office Security delivers outstanding security, but runs so smoothly and efficiently in the background that you almost forget it's there.

Kaspersky®
SMALL OFFICE SECURITY

HIGHLIGHTS

World-Class Security – securing your business from known and emerging threats.
- Layers of protective technology to address all known types of malware.
- PCs, servers, Android smartphones and tablets all protected.
- Includes advanced cloud-enabled, proactive security to protect in real time.
