**MAXHUB** 

Maxhub ST41 Mobile Trolley is a perfect companion for your commercial display and can be used with TV's, Digital Signage and Interactive Displays. The stylish grey trolley supports display sizes from 55" through to 86" with a maximum supported weight of 100Kg. The Adjustable display bracket is VESA compatible for sizes from 200 x 200 to 600 x 800 hole patterns and can accommodate a huge range of makes and models.

This great looking mobile cart includes a slimline shelf to hold your remote control or interactive stylus pens, plus has easy rolling 360° wheels that are fully lockable once the display is in the desired position. The Trolley offers a small amount of manual height adjustment when assembling, and is simple and easy to set up. The included Display arms are simply attached to the back of your display and then hung on the mobile trolley just like a wall mounting bracket.

The simple elegance and affordability of this stylish trolley allows it to be used in many environments including conference centers, exhibition halls, museums, universities, schools, boardrooms and more.
